Scoring Matrix

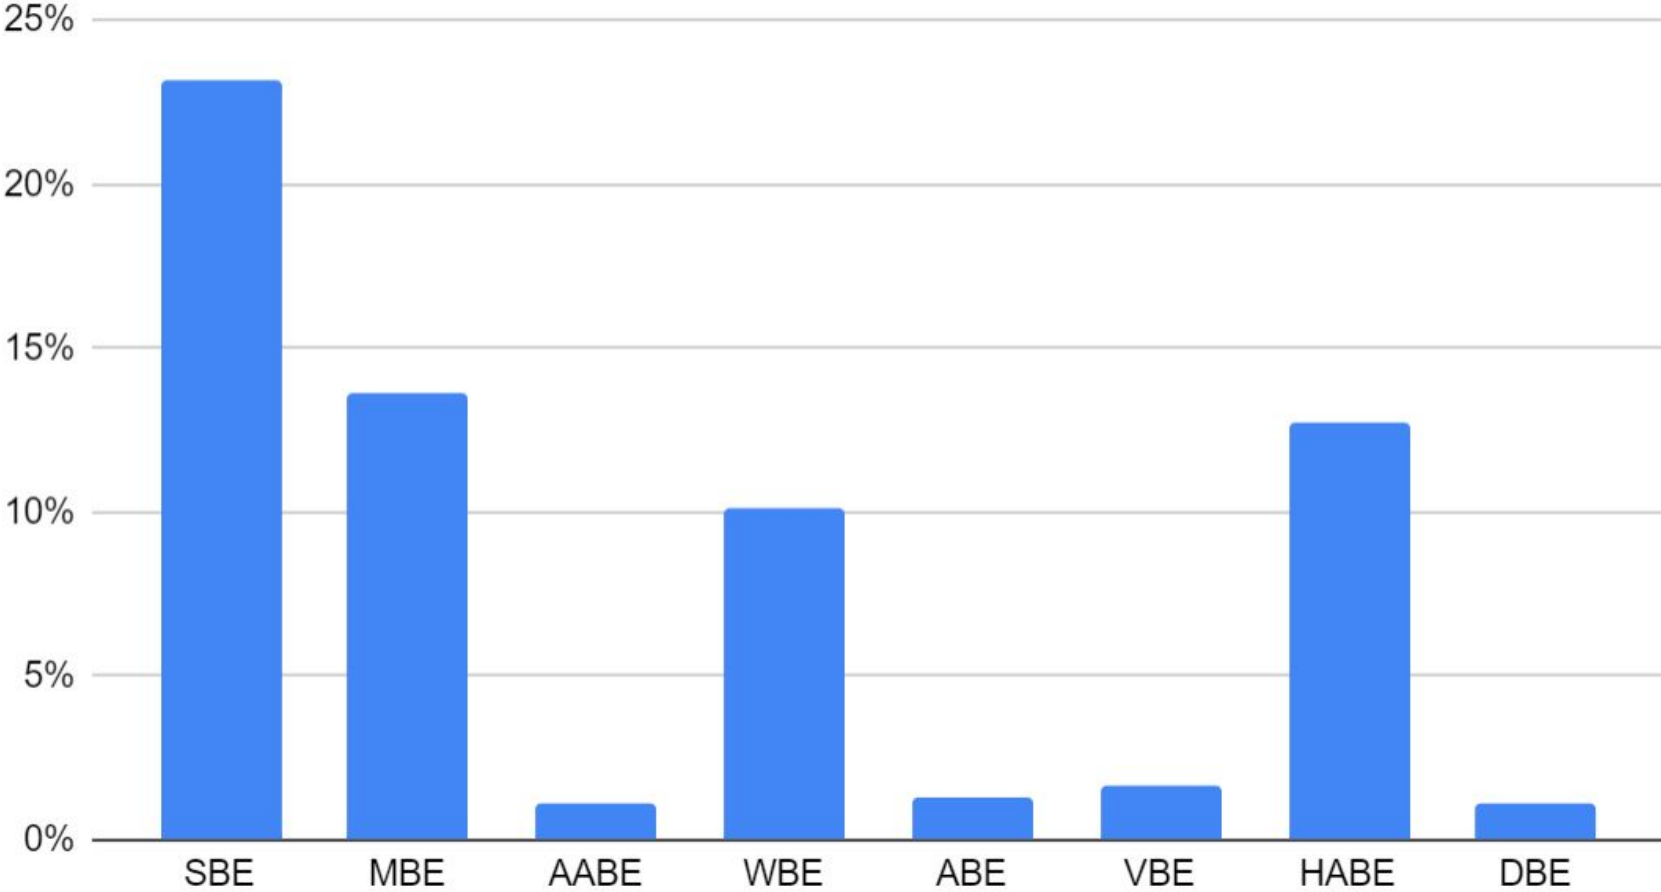

The FCC chose to focus on the percentage of business with SMWVBE instead of the exact amount spent, when compared to total annual spending of each entity. Focusing on percentage creates equal scoring and a fair comparison with all entities.

Each entity had an opportunity to get the highest score possible if they did the most percentage of business in each SWMVBE category.

Scoring Matrix	If top score is 50% or above	If top score is 30% or above but less than 49.99%	If top score is 10% or above but less than 29.99%	If top score is less than 9.99%
